

AMERICAN MOTORS LOCKS

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
2. Items marked DWO are discontinued when out. The part numbers are listed for the benefit of those who already have stock.
3. Remember – Driver side is LEFT, Passenger side is RIGHT

IGNITION LOCKS

Model	Years	Key	Part description	Part no.	Part description	Part no.	Notes
