AUSTIN LOCKS

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers.   This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.

2. Identify which tumblers and keying kits to use according to the separate chart organized by the key blank numbers.

3. Items marked DWO are discontinued when out.   The part numbers are listed for the benefit of those who already have stock.

4. Remember – Driver side is LEFT, Passenger side is RIGHT
