

# EDSEL LOCKS

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
2. Remember, left side (LH) is DRIVER side, right side (RH) is PASSENGER side

## IGNITION LOCKS

Model	Years	Key	Part description	Part no.	Part description	Part no.	Notes

## REAR COMPARTMENT LOCKS

The locks pictured below are the only rear compartment locks available for 1952-66 year model Ford products. These are pin tumbler locks using the H26 type keys. Complete year and model applications are not available. See the information and illustrations below and compare with the lock originally installed on the car.

Part no. B-42-100 - the front of the plug extends approximately 0.16 inch from the front of the lock housing.

Part no. B-42-109 - the front of the plug aligns even with the front of the lock housing.

Scroll down for tumbler, spring, and keying kit information.
