

# FORD DOOR LOCKS

**IMPORTANT:** See the separate Ford Trucks section for Pickups, Vans, and heavy duty trucks. Sport Utility Vehicles such as Bronco, Escape, Explorer, Expedition, and Excursion are in this section.

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
2. We supply coded or uncoded according to what is available to us from the manufacturer. All coded cylinders can be disassembled for rekeying, using the tumblers and keying kits listed. Coded locks may be substituted for locks listed as uncoded. Uncoded locks will never be substituted for locks listed as coded.
3. Identify which tumblers and keying kits to use according to the separate chart organized by the key blank numbers.
4. The dual part numbers for the same applications are the same part numbers at the same price. The number beginning with DL are Lockcraft part numbers. The ASP format part number (such as beginning with D-42-) are from the days when ASP sold only the original Ford production parts made by Hurd in Tennessee.
5. Items marked DWO are discontinued when out. The part numbers are listed for the benefit of those who already have stock.

**IMPORTANT:** RIGHT SIDE (RH) is the PASSENGER SIDE, LEFT SIDE (LH) is the DRIVER SIDE. If only one part number is listed, that part number can be used on either side.

Probe	1989-92	MZ13	Replacement locks previously available as D-20-109 (single lock) or DP-20-109 (keyed alike pair) – disc. when out Now use D-20-101, to match original car trim replace the D-20-101 face cap with the lock originally installed on the car – HOWEVER the P-20-232 black dust cover. D-20-101 (single lock) or DP-20-101 (keyed alike pair) can be installed on the car with no changes but will not match the original car trim. To service the locks originally installed on the car use the following parts: Use face cap P-20-209 Use tumbler series P-20-111/164				
Probe	1993-97	MZ19	Replacement locks previously available as D-20-126 (single lock) or DP-20-126 (keyed alike pair) – disc. when out. Exact replacement locks may be available from Ford dealers (also listed as discontinued when out by Ford). Option from ASP: Use D-20-110 and reuse the pawl from the lock originally installed on the car – HOWEVER the central locking function will not unlock both doors when turning the key as when the car was new. The modified D-20-110 will lock and unlock only the door on which it is installed. Use face cap P-20-261 (black) Use tumbler series P-20-131/155
