

JAGUAR LOCKS

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
2. Identify which tumblers and keying kits to use according to the separate chart organized by the key blank numbers.
3. Items marked DWO are discontinued when out. The part numbers are listed for the benefit of those who already have stock.
4. Remember – Driver side is LEFT, Passenger side is RIGHT

Ignition Locks

Model	Years	Key	Part description	Part no.	Part description	Part no.	Notes	
Most models non locking steering	before 1970	62FS	Coded plug (flat face) FS code series (62FS key blank)	C-14-301	Coded plug (turn knob face) – FS code series (62FS key blank)	C-14-302	Use tumbler series P-14-201/203	
		62FT	Coded plug (flat face) FT code series (62FT key blank)	B-14-210	Use tumbler series P-14-211/213			
Some models with locking steering	before 1970	Various	Coded cylinder	C-00-101 (DWO)	Replacement for some locks using pin tumbler cylinders, some modification may be necessary to install this cylinder into the original lock housing. Exact replacements of this design are no longer available. Disassembly and rekeying of this lock is not recommended.

XK	2007	HU101	Replacement locks available from Jaguar dealers only.				
All others	2008-19	HU101	Replacement locks available from Jaguar dealers only				

Door lock retaining clip

The D-14-215 design door locks are held to the car by a 2-prong retaining clip. This clip is easily broken when removing a lock from the car, and also loses tension over time. Replacement clips are available

Part no. F-14-401

Rear Compartment Locks

Model	Years	Key	Part description	Part no.	Notes
E-Type (XKE)	All		Replacement locks available from Jaguar dealers only.		
Mark 10 (Mk. X)	All		Replacement locks available from Jaguar dealers only.
