

MG LOCKS

General information as follows:

1. Key blank references are for the profile only, using one of the more well-known blank numbers. This list does not include all variations of different head shapes, lengths, or transponders, the main object is to identify which key profile enters the lock.
2. Identify which tumblers and keying kits to use according to the separate chart organized by the key blank numbers.
3. Items marked DWO are discontinued when out. The part numbers are listed for the benefit of those who already have stock.
4. Remember – Driver side is LEFT, Passenger side is RIGHT

Ignition Locks

Model	Years	Key	Part description	Part no.	Part description	Part no.	Notes
Some models non locking steering	before 1970	62FS	Coded plug (flat face) FS code series uses 62FS key blank	C-14-301	Coded plug (turn knob face) – FS code series uses 62FS key blank	C-14-302	Use tumbler series P-14-201/203

Tumblers (FS) - P-14-201/203 Tumblers (FT) – P-14-211/213

Door lock retaining clip

Most door locks are held to the car by a 2-prong retaining clip. This clip is easily broken when removing a lock from the car, and also loses tension over time. Replacement clips are available

Part no. F-14-401
