

MERCURY REAR COMPARTMENT LOCKS 1952-65 YEAR MODELS

The locks pictured below are the only rear compartment locks available for 1952-66 year model Ford products. These are pin tumbler locks using the H26 type keys. Complete year and model applications are not available. See the information and illustrations below and compare with the lock originally installed on the car.

Part no. B-42-100 - the front of the plug extends approximately 0.16 inch from the front of the lock housing, used on various models 1952-65

Part no. B-42-109 - the front of the plug aligns even with the front of the lock housing, used on various models 1952-65

Part no. B-42-101 - fits only 1965-66 Mustang, 1965 Fairlane and Falcon sedan and electric wagon tailgate, and 1965 Mercury Comet sedan and electric wagon tailgate. IMPORTANT there are other applications which use a lock cylinder similar to this one but will not interchange.

These locks can all be rekeyed with the P-42-181/185 tumbler series which were contained in keying kit A-42-108. The complete keying kit is no longer available, individual refill pin packs are available until sold out. Available parts are as follows:

P-42-181 - #1 depth pin

P-42-182 - #2 depth pin (sold out)

P-42-183 - #3 depth pin

P-42-184 - #4 depth pin

P-42-185 - #5 depth pin (sold out)

P-42-287 - spring cover retainer

P-42-180 - tumbler springs
